Profile

Dynamic Unity Developer with experience at Secure Edge Fintech Pvt. Ltd., specializing in mobile game and augmented reality development. As a Unity Game Developer, I've been steadily building my skills and experience in game development. I have a good understanding of the Unity Engine and can work with C# scripting to bring ideas to life and giving me a broader perspective on game creation tools.

Professional Experience

08/2025 – 09/2025
Lucknow

Unity Developer
- Collaborated with cross-functional teams to ensure seamless integration of assets and functionality.
- Creating an application which tracks an image and plays the video over the image.
- Leveraged scripting languages like C# to maximize versatility in designing unique application.

Augmented Reality	●●○○○		

Projects

05/2025 – 08/2025

Image Tracking Prototype
Developed an AR-based mobile application that allows users to visualize in real-world environments using smartphone cameras. Integrated Vuforia Engine to accurately anchor 3D models on flat surfaces in real-time. Focused on creating a user-friendly interface with interactive model scaling, rotation, and position adjustment.

11/2024 – 01/2025

Block Run (Mini Game)
Designed and developed a runner-style block game using Unity Engine. Implemented different obstacle from which the block has to dodge. Added animation like Welcome Page, Score and Level Complete. Technologies used were Unity Engine and C# programming for scripting.

08/2025 – 09/2025

Sky Lander
Created a 2D space landing game in Unity where the player controls a space shuttle that must land safely on a designated landing pad before fuel runs out. Designed a fuel management system and collectible coins to encourage exploration and challenges.

Education

11/2022 – 08/2026
Lucknow, India

Bachelor of Technology in Computer Science & Engineering
Babu Banarasi Das Institute of Technology And Management
